

WED71HEB-Electric — Duet® Long Vent Front Load Dryer

Preserves the perfect fit *

ADVANCED MOISTURE SENSING

Three built-in sensors read incoming air temperature and outgoing air temperature while monitoring moisture levels inside the dryer. This helps the drying cycle end when everything is perfectly dry, saving time and energy and helping to prevent over drying.

WRINKLE SHIELD™ OPTION

Help keep wrinkles from setting in to your clean clothes with intermittent tumbling after the dryer cycle ends. The process lasts for up to 140 minutes or until you open the dryer door.

QUIET DRY ULTRA NOISE REDUCTION SYSTEM

Keep operational sounds inside the dryer and out of living areas with sound-absorbing materials around the dryer drum. The Quiet Dry Ultra system is the highest level of sound reduction available.*

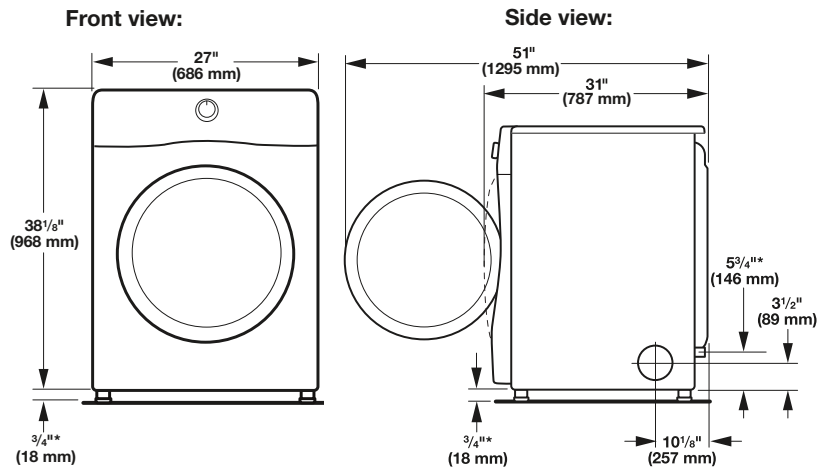

TAP TOUCH CONTROLS

Interface allows direct access to dryer functions, and its sleek appearance enhances the appeal of any space.

WED71HEB–Electric — Duet® Long Vent Front Load Dryer
